Description

HPE Storage Integration Pack for VM Essentials extension provides a uniform data management platform that natively extends to HPE Alletra MP offerings. The intuitive interface provides easy access to system details, including raw capacity utilization, alerts, and storage pools details.

Update recommendation

Recommended.

Supersede information

8.0.6

Version

8.0.8

Supported products and operating systems

- HPE Alletra Storage MP B10000

Languages

The HPE Storage Integration Pack for VM Essentials supports the English language for displaying the webpage. If there are multiple languages, set to use English as the first preference.

Features

- Updated Summary tab to provide additional details of the storage system such as model name, serial number, firmware version, World Wide Name (WWN) or unique identifier name, total operational uptime, and IP address.
- Check the overall health status of the storage system based on alerts listed on the Alerts tab.
- Capability to monitor the usable capacity information for the HPE Alletra MP B10000.

Fixes

None.
